## What is MedKaki?

**MedKaki** is a digital platform providing assistance to eligible patients who may require help with managing the cost of their treatment.

The programs in MedKaki are open to subsidized patients from selected public hospitals, who are prescribed with medications listed on MedKaki. Patients may voluntarily sign up for a program or upon advice from their doctors.

MedKaki provides a convenient platform for patients to:

- register for assistance
- submit supporting documents
- receive guidance on medicine collection

Pfizer Private Limited, 80 Pasir Panjang Road, #16-81/82, Mapletree Business City, Singapore 117372 | Tel: (65) 6403 8888, Fax: (65) 6403 8868 | www.pfizer.com.sg
PP-PFO-SGP-0026/02MAR2021

**Download** the MedKaki app and create a **new patient profile** 

2

Enroll into a patient program.

All programs are a **co-pay model** 

You will need to purchase part of your monthly supply from the hospital pharmacy, with the rest provided by your program

3

Ask your doctor for a physical prescription

Submit your supporting documents

4

 Upload a picture of your prescription and proof of purchase in MedKaki

- choose a **Watsons pharmacy** for medication collection

5

Processing your submission requires **5 working days** 

6

You will receive in-app e-vouchers after your documents are processed

Collecting your program medications

Proceed to your selected Watsons
Pharmacy with your prescription,
NRIC and in-app e-vouchers

Consider contacting the Watsons pharmacy on operational hours before collecting your medicine(s)

8

The pharmacist will check your documents and allow you to scan the Watsons pharmacy QR code to complete PAP medication collection process

You may **repeat** this process monthly as long as you are on treatment
